

The goal of this symposium

Minorities remain the focus of healthcare challenges to persistent and unexplained disparities. Many are not aware of warning signs, treatment options and available resources in their own communities.

The goal of this symposium is to narrow this disparity gap through education and community empowerment.

Medical experts and community leaders will deliver prescriptions for healthier living to community members of all ages. Small interactive sessions will enable focused dialogue and opportunities for clarity.

Who Should Come:

Mothers • Fathers • Brothers and Sisters
Teenagers • The Community

Free Health Screenings

On-site health screening and educational materials will be provided free of charge.
